

ROLL-TITE TRAILER (CONESTOGA)

Roll-Tite Trailers (also called Conestoga Trailers) are designed to provide the similar enclosed protection that a Dry Van offers while, at the same time, the loading capabilities of an open deck Flatbed. The sliding curtain opens to allow for loading from the side, rear or from above. Once the freight is loaded, the sliding curtain is closed and remains so until the product is unloaded. An additional benefit versus a Flatbed with tarps is that there is little risk of the tarps rubbing against the product and potentially damaging it. This can be the case when freshly painted equipment or machinery is tarped.

ROLE-TITE TRAILER DIMENSIONS

Length	48' - 53'
Width	102"
Door Height	98" - 102"
Total Height	13'6"

ROLE-TITE TYPICAL CARGO MAXIMUMS

Cargo Width	102"
Cargo Height	98" - 102"
Cargo Weight	45,000 - 48,000 lbs
Pallet Count	24 - 26
