

# DOUBLE DROP TRAILER

## (LOWBOY)

Double Drop trailers, also known as Low Boys, are utilized to transport oversized freight both legally, and through the use of permits and/or escorts. There are three decks: the upper deck, the lower deck and the well. The well allows for freight up to 144" high to be legally transported. There are a number of trailer variations which allow for the transport of a wide array of oversized freight with varying degrees of length and height. Full tarping options are available as needed.
